

# BRILLIANT BEGINNINGS PRESCHOOL

## Mission Statement

### FOR THE CHILDREN:

We want our preschoolers to feel safe and secure while in our classroom. We want them to feel love and acceptance, individuality and challenge, direction and purpose. Excitement and magic! We will create a classroom with all of these aspects, an environment which will allow our students to be who they are and freely flourish.

### FOR THE PARENTS:

We will work to create and maintain good relationships with the parents of our students. We will provide detailed information on classroom activities, goals, and progress. We desire to form a partnership with each parent and to be approachable as teachers. We want each parent to be at ease while their child in our classroom, assured that their preschooler is well taken care of and having fun at school! We will see to it that each parent feels just how thankful we are for the opportunity to work with their child.

### AS TEACHERS:

We will do everything possible to meet each of the needs within our classroom walls. We will take the necessary steps to help our students understand that we want them to be happy and successful. We will strive to positively and lovingly rally each child forward, encourage questions, and support creativity. We commit ourselves to continual learning and training. We will provide a curriculum that is both enjoyable and challenging, and we will regularly incorporate new ideas and keep our students engaged and excited about learning.
